Mini buying guide:

When furnishing a preschool classroom, it is essential to choose solutions that are **functional, ergonomic, and suitable for children's daily use**. The h979_30 bookcase is designed to meet these needs with a robust, safe, and visually engaging design.

Children also learn through the environment they are in. A bookcase accessible at their height allows little ones to **interact independently** with books, toys, and educational materials, promoting inclusion and the development of personal autonomy. The mobility of the furniture also allows educators to **easily restructure the space** depending on the day's activities.

The structure is made of **19 mm melamine** with ABS edging, materials designed for the school environment: wear-resistant, easy to clean, and able to maintain their aesthetic appearance over time. The internal three-layer particle board guarantees a **density of 630 kg/m³**, which makes the piece of furniture stable and durable.
