

## Preschool chair H 22 cm h848\_23

Preschool chair h848\_23 in polypropylene. Stackable, ergonomic and colorful for school environments. Dimensions: 35 x 34 x H 22 cm.

The **Preschool chair H 22 cm h848\_23** is a seating solution for early childhood designed for the layout of classrooms and educational spaces intended for the youngest children. This accessory solves the operational criticality of organizing and optimizing space within school environments, while simultaneously ensuring a seat suited to the stature of small users thanks to a seat height from the ground of 22 cm. Aimed at preschools, nurseries, playrooms, children's centers and school facility managers, the chair is made entirely of polypropylene, a material that ensures durability, lightness and ease of cleaning during daily activities. The structure has an overall footprint of 35 x 34 cm with a seat height of 22 cm and is characterized by being stackable, allowing for rapid storage when rooms must be cleared for recreational or tidying activities. The item is available in various colors to adapt to the decor of every classroom.
