

Preschool chair H 26 cm h848_24

Preschool chair h848_24 in polypropylene. Stackable, ergonomic and colorful for school environments. Dimensions: 35 x 34 x H 26 cm.

The **Preschool chair H 26 cm h848_24** is a stackable seat designed for setting up classrooms, laboratories and educational spaces dedicated to children. This furniture responds to the operational need to optimize the management of school spaces and offer a seat proportionate to the height of the students, thanks to a height from the ground of 26 cm. Aimed at preschools, nurseries, playrooms, recreation centers and school complexes, the chair is made entirely with a polypropylene structure, a material that combines lightness, resistance and practicality in daily cleaning. The structure has dimensions of 35 x 34 cm with a seat height of 26 cm (35x34x26 h cm) and is stackable, allowing you to quickly clear the work area for floor activities or store the seats in an orderly manner. The item is available in various colors to coordinate with different educational environments.
