

Preschool classroom desk h979_13

Preschool desk with melamine top and metal structure. Height: 530 mm. Size: 2. Dimensions: W.1000 x D. 660 x h. 530 mm.

The **preschool classroom desk h979_13** is designed to guarantee resistance, safety, and functionality in school environments. Thanks to the combination of high-quality materials and a solid structure, it is ideal for promoting comfort and stability during educational activities.

The tabletop is made of **19 mm melamine**, with **2 mm ABS edges** and bonding with **PUR glue**, which ensures **resistance to scratches, moisture, and impacts**. The panel is composed of **three-layer chipboard**, pressed at high temperature and coated with **melamine-impregnated decorative paper**, offering a smooth, safe, and easy-to-clean surface.

The **reinforced steel structure** consists of **Ø35 mm tubular legs** with a thickness of **1.5 mm**, fixed to the top via a **6 mm welded steel sheet**, to guarantee **stability and resistance to intensive use**.

For a safe and stable support, each foot is equipped with **levelling glides**, which allow the desk to adapt to uneven surfaces and avoid wobbling.

The structure is finished with **epoxy-polyester electrostatic powder coating**, with **microcrystalline anti-corrosive treatments and passivation**, which improve corrosion resistance and paint adhesion by **300%** compared to standard treatments.

Supplied **unassembled**, the desk features a **quick and safe mounting system using M6 screws included in the supply**. Furthermore, it is certified according to **ISO 9001, 14001, and 14006** standards, guaranteeing quality and safety in production processes.

Technical characteristics:

- **Structure:** Steel with anti-corrosion epoxy painting
- **Tabletop:** 19 mm melamine with 2 mm ABS edges
- **Dimensions:** W.1000 x D. 660 x h. 530 mm
- **Size:** 2
- **Feet:** Ø35 mm tubular, 1.5 mm thickness, with levellers
- **Finish:** Epoxy-polyester electrostatic powder coating
- **Assembly:** Unassembled, with M6 screws for simple assembly
- **Certifications:** ISO 9001, 14001, and 14006

User benefits:

- **Robust and durable structure:** Certified materials to guarantee stability and resistance over time.
- **Impact and scratch-resistant top:** Melamine with protective finish for prolonged use.
- **Optimal stability:** Legs with levellers to adapt to any surface.
- **Easy to assemble:** Simple assembly system with M6 screws included in the supply.
- **Ideal for school environments:** Perfect for preschools and educational spaces.

FAQ:

1. **Does the desk arrive assembled?**
No, it is supplied unassembled, but assembly is simple thanks to the system with M6 screws included in the supply.
2. **Is the desk suitable for intensive use?**
Yes, the steel structure with anti-corrosion treatment and the melamine top make it perfect for frequent use in schools.

3. **Is it height-adjustable?**

No, the height is fixed, but the desk is equipped with levellers to ensure stability on any surface.

4. **Is the top resistant to scratches and moisture?**

Yes, the 19 mm melamine is designed to resist scratches, moisture, and daily wear.

5. **What treatments does the steel structure have?**

The structure is finished with epoxy painting and treated with anti-corrosion nanoceramics, improving resistance by 300% compared to traditional treatments.

Mini buying guide:

When choosing a desk for preschool, it is important to evaluate resistance, stability, and practicality. The **h979_13** model is designed to offer **safety and durability**, thanks to a **steel structure with anti-corrosion treatment and a scratch-resistant top that is easy to clean**.

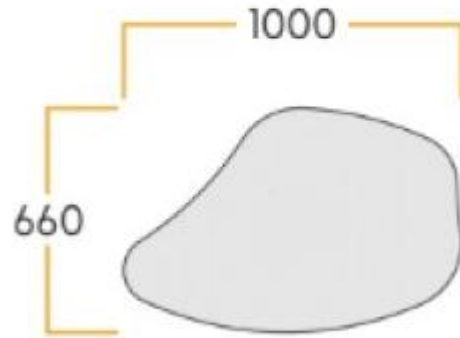

Thanks to the **levellers on the legs**, the desk can be used on any surface without risks of instability. Perfect for **preschools, nurseries, and educational environments**, it offers reliable support for daily activities.

Preschool desk, desk with steel legs, desk with melamine top, resistant school desk, preschool furniture, ISO certified nursery desk, robust school furniture.
