

Preschool coat rack h364_48

Wall-mounted coat rack for preschools in class 1 fire-retardant melamine, 10 hooks, birch finish with orange hooks. Compliant with CAM regulations.

The **preschool coat rack** is a functional module designed for the organization of educational spaces such as nurseries, kindergartens, and playrooms. The structure has been developed to ensure maximum safety in collective environments, using **class 1 fire-retardant melamine**, an essential feature for compliance with fire regulations in school buildings. The surface features a **scratch-resistant and anti-reflective** treatment, designed to maintain aesthetic and functional integrity despite intensive daily use by young children.
