

Preschool desk recycled material h364_80

Preschool table compliant with CAM standards in recycled material, with scratch-resistant FSC top and anti-shock edges. Dimensions: W 140 x D 90 x H 52 cm. 5-year warranty.

The **preschool desk h364_80** is a technical furniture element designed to combine safety, ergonomics, and sustainability in educational environments. Manufactured in compliance with the **Minimum Environmental Criteria (CAM)**, the table uses an **FSC-certified melamine chipboard** top, treated to be anti-reflective and highly resistant to scratches and chemical agents used in daily sanitization. Passive safety is guaranteed by a **soft anti-shock esaflex edging in red**, with rounded corners that prevent injuries during children's activities. The structure rests on colored polypropylene legs, produced with **81% recycled material**, equipped with anti-extraction and scratch-resistant plastic feet that ensure stability and protection for school flooring.
