

Preschool table h735_03

Rectangular desk 130x65 cm for kindergartens in wood-fiber conglomerate and polypropylene, with shockproof Esaflex edges and colored removable legs.

The **rectangular-shaped desk** is a furnishing solution specifically designed for setting up classrooms in kindergartens, preschools, and playrooms. The structure is conceived to meet the anthropometric needs of children, placing **passive safety** at the center of the design. The worktop is made of **white wood-fiber conglomerate**, finished with rounded edges and covered in **shockproof Esaflex** to prevent injuries during educational activities. The support system features easily removable polypropylene legs, facilitating space reconfiguration operations and storage in reduced volumes.

Technical features

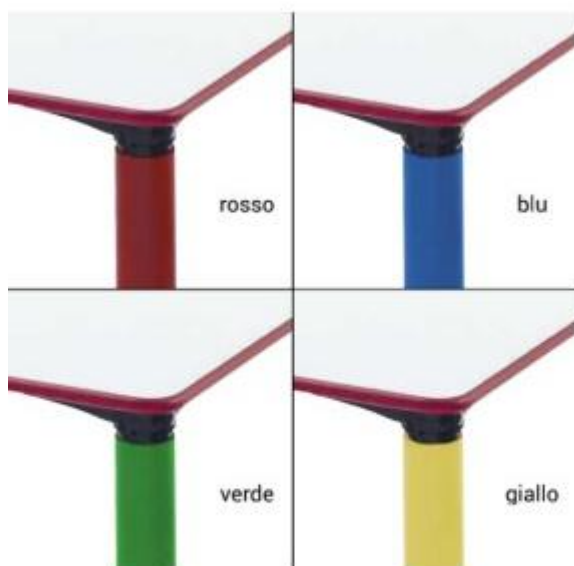

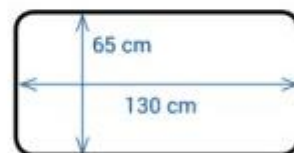

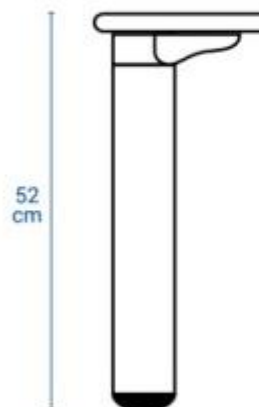

- **Dimensions:** W.130 x D.65 x h.52 cm
- **Top material:** white wood-fiber conglomerate
- **Leg material:** high-resistance polypropylene
- **Safety:** Esaflex shockproof perimeter edging with rounded corners
- **Assembly system:** removable legs fixed by 4 reinforced corner joints
- **Customization:** legs available in different color variants
