

Preschool table with melamine top h848_33

Table h848_33 (100x100x53h cm) in 25 mm thick melamine and Ø 40 mm tubular for preschool. Colors customizable on request.

The **Preschool table with melamine top h848_33** is a furnishing solution designed for setting up classrooms, laboratories, and recreational contexts dedicated to early childhood. The product addresses the operational need to equip educational spaces with a safe, stable support surface sized for children's height, reducing the risks of accidental impact thanks to the presence of rounded edges. Aimed at preschools, nurseries, playrooms, and managers of childcare centers, the table measures 100 x 100 cm with a height from the ground of 53 cm and a weight of 26.90 kg. The furniture consists of a 25 mm thick melamine top supported by a tubular structure with a diameter of 40 mm. As standard, the structure is available in Light Grey and Metallic finishes, while the top is supplied in Ivory, with the possibility of requesting the table in different colors on request.
