

Primary school desk h908_56

Single-seater primary school desk in steel and laminate, 70x50 cm, equipped with an under-desk grid for educational space optimization.

The **h908_56 single-seater desk** is a technical furnishing solution specifically designed for the needs of primary school educational environments. The structure integrates a large work surface with an intelligent storage system, allowing for the efficient management of daily school materials. Thanks to the use of high-resistance materials, the desk guarantees a long service life even in contexts of intensive and dynamic use, while offering ergonomic support that promotes concentration and correct student posture.

Technical features

- **Top dimensions:** 70 x 50 cm, ideal for easily accommodating books and notebooks.
- **Operating height:** 59 cm, calibrated for the primary school age group.
- **Supporting structure:** tubular steel with **Ø28 mm** diameter and continuous curvature for superior stability.
- **Storage system:** under-desk grid in electro-welded metal wire for housing stationery and texts.
- **Surface resistance:** worktop designed to resist scratches, impacts, and chemicals contained in common detergents.
- **Design:** single-seater configuration with neutral finish for harmonious integration into any classroom.
