

Primary school desk with footrest h908_64

Single-seater school desk in steel, top 70x50 cm, height 82 cm. Includes wire mesh under-shelf and integrated footrest for ergonomics and order.

The **h908_64 single-seater desk** represents an advanced technical solution for educational furniture, specifically designed for the needs of primary schools and the first classes of secondary school. This model addresses the daily challenges of the school environment by integrating **structural stability** and ergonomic measures aimed at improving concentration and the physical well-being of the student during lesson hours.

Space management is optimized by the **metal grid under-shelf**, which allows the work surface to be kept clear of backpacks or books, while keeping necessary materials always accessible. The choice of a **curved steel** structure not only provides a modern design but also eliminates weak joints, ensuring superior resistance to the mechanical stresses typical of intensive use.

Technical features

- **Total dimensions:** W 70 x D 50 x H 82 cm
- **Supporting structure:** legs in Ø28 mm steel tube with curved profile
- **Worktop:** high-resistance surface of 70 x 50 cm
- **Storage system:** under-shelf compartment in metal wire mesh
- **Postural support:** integrated footrest in the structure for prolonged comfort
- **Safety:** absence of sharp edges thanks to the curvature of the tubular frame
