

## Privacy screen for medical offices h448\_27

Folding 2-section hospital screen, stainless steel, washable fabrics, Ø45mm wheels, 75x40x177cm.

Two-section folding screen designed specifically for healthcare and clinical environments. It ensures patient privacy during visits, treatments and medical procedures, creating separate spaces in medical offices, clinics, surgeries and hospitals. The robust stainless steel structure ensures hygiene, durability and ease of sanitization, fundamental requirements in medical contexts with high hygienic standards.
