

Privacy screen for medical offices h930_14

Single-section hospital screen with metal frame and PVC panel, 94x58x165 cm, for patient privacy in clinics and outpatient offices.

The privacy screen is a spatial separation solution dedicated to **clinics, outpatient offices, and hospitals**, where the need to guarantee **patient privacy** during visits and treatments is a priority. The metal structure ensures stability and durability over time, while the **PVC panel** offers maintenance practicality in healthcare environments with high sanitization frequency.

This product solves the problem of quick and functional subdivision of clinical spaces, allowing for the creation of isolated areas without permanent structural interventions.

Technical characteristics

- Single-section structure
- Metal frame
- Resistant and easy-to-clean PVC panel
- Length: 94 cm
- Depth: 58 cm
- Height: 165 cm
