

Productive space air cooler h958_29

Portable, ecological, and low-consumption evaporative air conditioner for spaces up to 100 m². Dimensions: 87 x 48 x 128.5 cm.

The **H958_29 productive space air cooler** represents a valid ecological and healthy alternative to traditional air conditioners. This **portable evaporative cooler** is designed to cool productive, commercial, and residential environments up to 100 m², such as workshops, marquees, terraces, restaurants, and commercial spaces. Thanks to natural cooling technology, the device provides **fresh, clean, and filtered air**, improving indoor air quality and promoting a healthier environment.

With a power of only **370 W**, the cooler guarantees **significant energy savings** compared to traditional air conditioners. Operation requires no installation: simply position it, fill the **55-liter** tank, and the portable system is ready for use. The device is designed to work in spaces with open doors and windows, using ecological and recyclable materials such as water, wood, and cardboard, without the use of CFCs, contributing to reducing CO₂ emissions.

With an **airflow of 9000 m³/h**, a **Ø 545 mm** fan with **3 adjustable speeds**, and a **maximum sound level of 63 dB**, the cooler offers quiet and versatile operation, suitable for various environments. The LCD panel and remote control allow for simple and intuitive control. Compact and lightweight, with a weight of only **38 kg**, the H958_29 model is easy to move and guarantees effective and sustainable climate control.

Choose an ecological and practical solution for cooling your spaces! Order the **H958_29 air cooler** today and discover sustainable comfort. Contact us for a personalized quote on multiple quantities.

Technical features:

- **Power:** 370 W
- **Airflow:** 9000 m³/h
- **Fan:** Ø 545 mm, 3 adjustable speeds
- **Control panel:** LCD with remote control included
- **Maximum sound level:** 63 dB
- **Cooled area:** 100 m²
- **Water tank capacity:** 55 liters
- **Water consumption:** 8 l/h
- **Dimensions:** 87 x 48 x 128.5 cm
- **Weight without water:** 38 kg

User benefits:

- **Reduced energy consumption:** only 370 W of power.
- **Portable and practical:** no installation required, easy to move.
- **Environmental sustainability:** uses recyclable materials, without CFC emissions.
- **Improves air quality:** provides clean, washed, and filtered air.
- **Quiet:** suitable also for work and commercial environments.
- **High tank capacity:** guarantees extended autonomy.

FAQ:

1. **Does the cooler require installation?**

No, it is portable and ready for use without the need for installation.

2. **What types of spaces can it cool?**

It is ideal for spaces up to 100 m², such as workshops, restaurants, and marquees.

3. **What is the water consumption?**

The average consumption is 8 liters per hour.

4. **Is it noisy?**

No, the maximum sound level is only 63 dB, ideal for various environments.

5. **How is the device controlled?**

Via an LCD panel or with the included remote control.

6. **Is it suitable for closed spaces?**

It works best with open doors and windows for optimal air recirculation.

Mini buying guide:

If you are looking for an air cooler for your productive or commercial spaces, consider the airflow, cooling capacity, and consumption. The **H958_29 model**, with an **airflow of 9000 m³/h** and a cooling capacity of up to **100 m²**, is ideal for medium-sized environments. The **55-liter tank capacity** and **low water consumption** guarantee continuous and economical use.

Check that the device is easy to use and portable: the LCD panel and remote control of the H958_29 make it simple and convenient to control. Opt for an ecological product that does not use CFCs and contributes to reducing environmental impact. With the H958_29 evaporative cooler, you can combine efficiency, sustainability, and practicality in a single device.

Productive space air cooler H958_29, portable evaporative cooler 100 m², low consumption evaporative air conditioner, ecological cooling for workshops, fresh and filtered air bio-cooler, quiet portable cooler.
