

Professional cleaning trolley for professional use h422_102

h422_102 professional cleaning trolley in polypropylene, 139x68x114 cm. Complete with down-press wringer and color-coded buckets, CAM compliant.

The **h422_102** professional trolley is an advanced technical solution for sanitization and cleaning logistics management in high-traffic environments. Made of **polypropylene copolymer**, the trolley guarantees exceptional resistance to impacts, heavy loads, and the corrosive action of chemical detergents. Its modular configuration is designed to optimize workflows in sensitive contexts such as canteens and hospital facilities, where material separation and operational efficiency are fundamental requirements.

Technical features

- Material: high-density polypropylene copolymer
- Integrated bag holder complete with ergonomic handle for handling
- Central storage tray for bottles and small items
- Pair of 4-liter auxiliary buckets for surface cleaning
- Two 15-liter main buckets for professional floor washing
- Down-press wringing system for flat mops and fringes
- Dimensions: L 139 x W 68 x H 114 cm
- Sustainability: Product compliant with Minimum Environmental Criteria (CAM)
