

Professional cleaning trolley h422_100

Professional trolley h422_100 in polypropylene, 133x68x114 cm. CAM compliant, ideal for healthcare and canteens, with flat press wringer and bag holder.

The professional cleaning trolley **h422_100** is an advanced technical solution designed to ensure the highest hygienic standards in sensitive environments such as **hospitals, nursing homes, and corporate canteens**. The structure is entirely made of **polypropylene copolymer**, a material selected for its high mechanical resistance and total chemical inertness to industrial detergents. The ergonomic design integrates a waste management system optimized to reduce operator fatigue and prevent cross-contamination.

Technical features

- **Material:** High-density polypropylene copolymer
- **Wringing system:** Professional flat press wringer
- **Washing capacity:** Two 15-litre buckets for the separation of the detergent solution
- **Additional equipment:** Two additional 4-litre buckets for surface cleaning
- **Storage:** Central storage tray and integrated bag holder
- **Sustainability:** Product compliant with Minimum Environmental Criteria (CAM)
- **Safety:** Latex Free structure
- **Dimensions:** W 133 x D 68 x H 114 cm
