

Professional cleaning trolley h42217

Fully equipped multipurpose cleaning trolley. 2 buckets of 15 l each. Dimensions: 143 x 67 x h107 cm

The cleaning trolley is ideal for use within communities, hospitality facilities, and various types of structures such as sports centers, in order to best organize cleaning activities.

The product is perfect for dusting, waste collection, and washing floors and surfaces.

The trolley is equipped with a **120-liter bag holder** (bag excluded) with an **ergonomic push handle** and complete with bag stretcher and reinforcements for maximum durability over time.

The bag holder is **foldable** for a reduction in overall dimensions after use.

The trolley is equipped with **four 6-liter buckets** color-coded to facilitate the differentiation of chemical products and tools used.

The four buckets are contained within a central **blue plastic tray**. A second tray will allow for **other useful tools** for cleaning activities.

The two buckets of 15 liters with wringer, allow for separating the detergent solution from the rinse water, ensuring **better washing results, greater hygiene, product savings, less working time and less effort** for the operator.

The **plastic base** allows for the placement and transport of various equipment and **prevents** annoying dripping on the floor during cleaning.

Quick and easy to assemble, the product is made of **recyclable polypropylene** and the trolley is moved by **100 mm diameter wheels**.
