

Professional emergency bag h690_05

First aid bag for out-of-hospital emergency. Material: polyester. Dimensions: W61 x D35 x H29.5 cm.

Emergency bag specific for ALS (Advanced Life Support) medical devices, meaning all the equipment necessary to perform advanced life support for patients in critical conditions. The interior is indeed organized in such a way as to accommodate everything needed in an orderly manner and so that it is easily identifiable by healthcare professionals. Easy to carry thanks to the **handles, the practical shoulder strap** and the possibility of use also as a backpack. Made of **polyester**, a robust material capable of withstanding any weather condition.
