

Professional exercise bike for rehabilitation h731_88

Professional exercise bike with advanced computer for monitoring training parameters, magnetic braking system, handlebar and saddle adjustment, and 12 kg flywheel mass. Dimensions: L 108 x W 56 x H 137 cm.

The **professional exercise bike H731_88** is designed for those who want a targeted and personalized workout, both for **fitness maintenance** and for **muscular rehabilitation**. Equipped with an **advanced training computer**, it allows you to monitor essential parameters such as **distance traveled, time, calories burned, heart rate, speed, RPM, recovery, and watts**, offering total control over physical activity.

The **preset programs**, including 12 presets, 4 customizable user programs, 4 HRC (Heart Rate Control), body fat tester, and watt training, allow you to diversify your workouts, adapting them to your needs. The **magnetic braking system** guarantees a smooth and silent pedaling, ideal for prolonged workouts, while the **1:16 gear ratio** and the **12 kg flywheel mass** ensure natural and uniform movement.

The exercise bike is also equipped with **heart rate detection via hand sensors** (hand pulse) and an **integrated wireless receiver**, compatible with heart rate chest straps, to accurately monitor your heart rate during training. **Adjustable handlebar and saddle** allow for optimal posture, reducing the risk of pain or injury, while the **transport wheels** simplify moving the equipment.

Certified according to the **EN957 - 5 HA** standard, this exercise bike is synonymous with quality and safety, perfect for intensive use.

Get the most out of your workout with the professional exercise bike H731_88! Buy now or contact us for more information.

Technical characteristics:

- **Braking system:** Magnetic
- **Flywheel mass:** 12 kg
- **Gear ratio:** 1:16
- **Training computer:** Display of distance, time, calories, heart rate, speed, RPM, recovery, watts
- **Programs:** 1 manual, 12 presets, 4 user, 4 HRC, body fat tester, 1 watt
- **Display:** LCD
- **Heart rate measurement:** Hand pulse and integrated wireless receiver
- **Saddle adjustment:** Height and depth
- **Handlebar:** Adjustable tilt

- **Transport wheels:** Yes
- **Power supply:** 240 VAC - 50 Hz
- **Certification:** EN957 - 5 HA
- **Dimensions:** L 108 × W 56 × H 137 cm
- **Weight:** 35 kg
- **Maximum capacity:** 150 kg

User benefits:

- **Advanced and customizable training:** with numerous preset programs.
- **Complete monitoring:** of training parameters in real time.
- **Smooth and natural pedaling:** thanks to the 12 kg flywheel mass.
- **Adjustable handlebar and saddle:** for a correct and comfortable posture.
- **Precise heart rate control:** with hand sensors and wireless receiver.

FAQ:

1. **What parameters does the training computer monitor?**
The computer monitors distance, time, calories, heart rate, speed, RPM, recovery, and watts.
2. **How many training programs are available?**
There are 23 programs available: 1 manual, 12 presets, 4 user, 4 HRC, body fat tester, and 1 watt training.
