

Professional hospital emergency trolley h44815

Medical emergency trolley equipped with an IV pole and oxygen cylinder holder. Drawers and inserts available in different colors. Cardiac massage board and safety lock available as options.

The emergency trolley is a fundamental product to allow healthcare workers to have all the tools necessary to face critical situations, also called an urgency trolley.

The product is therefore perfect for dealing with medical emergencies in the most immediate and effective way possible.

The urgency trolley consists of **5 drawers** where various types of medicines and medical instruments useful for intervening in emergency phases can be placed.

The presence of an **IV pole** with **adjustable height** from **78 to 123 cm** and the **oxygen cylinder holder**, makes the trolley perfect for multiple functions.

The **movement** of the trolley is practical and immediate thanks to the **lateral push handle** and the **Ø 100 mm wheels** of which **2 with brakes**.

The trolley features a **structure in aluminum and steel** with epoxy coating while the **surface and base** of the trolley are in **ABS**.

The **emergency trolley** is available with drawers and inserts in a choice of **different colors**.
