

## Professional infant changing table h44818

Professional steel changing table for infants, antibacterial sky fabric padded top, self-closing drawers, 115x53x86 cm.

The professional changing table is a solution dedicated to pediatric departments, medical offices, and hospital facilities for the care and changing of newborns and infants. Designed to ensure safety, hygiene, and operational practicality, it combines a robust structure with certified materials for healthcare environments.

The base consists of a **steel structure with epoxy coating**, which ensures durability over time and ease of sanitization. The top surface is equipped with a **fixed foam mattress, padded and covered in sky fabric**, which guarantees comfort for the infant while maintaining **antibacterial and fire-retardant** properties. Two **self-closing drawers** allow orderly access to tools and changing materials, while the **smooth bottom shelf** offers additional space for organization.
