

Professional medical sit-stand stool h891_30

Professional sit-stand stool for medical practices. Seat height adjustable from 675 to 925 mm. Fabric seat. Plastic base

The **sit-stand stools for medical practices** are essential tools for healthcare professionals as they offer ergonomic support in both sitting and standing positions, contributing to a healthier and more productive work environment. Particularly useful in healthcare settings such as medical offices, hospitals, clinics, and outpatient rooms, where flexibility and movement are essential for carrying out daily activities. The **sit-stand stool for medical practices** offers a wider **height adjustment** than traditional stools, allowing the seat to be adapted to different operating heights. This allows professionals to easily switch from a sitting to a standing position. The **saddle seat**, in fact, is **swivel, height-adjustable via gas spring and tilt-adjustable**. Both the **seat** and the **backrest** are made of **fabric**. The **base** is made of **plastic** and is **sturdy and resistant**, allowing any movement on various surfaces. Ideal for healthcare professionals who need mobility and versatility during work.
