

Professional steel workshop trolley h1035_16

Professional painted steel workshop trolley, 400 kg load capacity, 3 shelves and hook panel. Dimensions 750x420x816 mm, ideal for heavy loads.

The professional workshop trolley **h1035_16** is designed for the intensive organization and handling of tools and mechanical components in industrial contexts, maintenance departments, and laboratories. The structure solves the critical issues related to the mobile storage of heavy equipment, offering a dynamic workstation that reduces travel time within the operating area.

Made entirely of **high-resistance steel** with an anti-corrosion finish, the trolley guarantees stability even under full load. The three-level configuration allows for a clear separation of materials, while the integration of a perforated side panel extends vertical storage capacity for frequently used manual tools.

Technical features

- **Material:** Steel with anti-corrosion protective coating
- **Load capacity:** 400 kg (distributed static load)
- **Configuration:** 3 shelves with 670 x 390 mm tray
- **Handling system:** 4 wheels Ø 75 mm (2 equipped with parking brake)
- **Included accessories:** Side hook panel and ergonomic push handle
- **Total dimensions:** 750 (h) x 420 (w) x 816 (d) mm
- **Empty weight:** 17.7 kg
- **Color:** Red
