

Professional stool with multifunction armrest h904_25

Professional stool for clinics with multifunction armrest. Dimensions: W. 60 x D. 60 x h. from 63 to 83 cm.

The **professional stool** is specifically designed **for use in clinics, outpatient clinics, medical offices and hospitals**, offering superior **comfort and functionality** for healthcare personnel. The **tilting seat** to adapt to different usage needs, is **padded with 2 cm thick semi-hard foam**, ensuring comfortable and long-lasting support. The **seat upholstery** is in **fabric, available in a range of colors** to satisfy every aesthetic preference and coordination need with existing furniture. A **multifunction armrest** completes the stool's equipment, providing additional support and versatility for the user. The **aluminum star base** provides stability and sturdiness, while ensuring easy maneuverability thanks to its smooth-running wheels. The **metal structure** of the stool ensures its solidity and durability over time, making it suitable for intensive use in healthcare environments. The **adjustable height**, which ranges **from 63 to 83 cm**, allows the stool to be adapted to the different height needs of the user and specific operating situations, improving ergonomics and reducing fatigue during long working hours. This professional stool represents the ideal solution for those looking for a product that combines comfort, functionality and modern design, responding to the high demands of the medical sector.
