

Professional telescopic ladder h858_03

Professional telescopic ladder in anodized aluminum, 5 meters height, 150 kg capacity, EN 131 certified with space-saving compact design.

This **professional telescopic ladder** is designed to offer an extremely versatile and safe high-access solution. Made of high-quality **anodized aluminum**, the structure ensures superior wear resistance and prevents surface oxidation, keeping the operator's hands clean during use. The integrated **locking mechanism** gives the ladder stability comparable to rigid models, allowing operation in various height configurations up to a maximum extension of 5 meters.

Technical features

- Material: resistant anodized aluminum
- Certified maximum capacity: 150 kg
- Step configuration: 2 x 8
- Special non-slip steps with ribbed surface
- Maximum extended height: 5 m
- Storage dimensions (closed): 89 x 47 x 20 cm
- Regulatory compliance: EN 131 Certified
- Safety system: reinforced locking mechanism
