

Professional telescopic ladder h858_58

Professional telescopic ladder in anodized aluminum, 380 cm, 150 kg capacity, 13 non-slip steps and safety soft-close system. This **anodized aluminum telescopic ladder** represents an advanced technical solution for professionals requiring an extensible climbing tool that remains extremely compact during transport. Thanks to the treated aluminum structure, the ladder offers high resistance to wear and external agents, while ensuring a surface that is clean to the touch for the operator. The integrated closing system addresses manual safety concerns, preventing crushing risks thanks to a controlled mechanism.
