

Professional telescopic ladder h858_61

Professional telescopic ladder in anodized aluminum, 410 cm. EN 131 certified, 14 non-slip rungs, extremely compact and maneuverable.

This **professional telescopic ladder** has been designed to offer a versatile and safe solution in contexts where storage and maneuvering space is limited. Thanks to the **anodized aluminum** structure, the product guarantees high resistance to wear and prevents oxidation, keeping the operator's hands clean during use. The "step-by-step" opening and closing system allows for millimeter-level height adjustment, perfectly adapting to the specific needs of every technical or maintenance intervention.

Technical features
