

Professional workbench W. 200 cm with drawer unit h870_12

Industrial workbench 2000x800 mm with 40 mm beech multiplex wood top, 4-drawer unit and floor-fixable steel structure. This **professional workbench** is designed to operate as a fixed station in workshops, industrial departments and warehouses, facilitating maintenance and assembly operations. The structure combines the mechanical resistance of a high-thickness top with the functionality of an integrated storage system, ensuring an organized and efficient work environment.

Technical features

- **Dimensions:** W. 2000 x D. 800 x h. 870 mm
- **Worktop:** Beech multiplex wood with 40 mm thickness
- **Supporting structure:** 1 powder-coated sheet steel support
- **Stability:** Integrated perforated base plates in the support for mechanical floor fixing
- **Storage system:** 1 drawer unit with 130 mm plinth
- **Drawer configuration:** 4 units with different heights (75 mm, 100 mm, 125 mm and 300 mm)
- **Load capacity:** Certified capacity of 75 kg per single drawer
- **Customization:** Metal components available in various RAL colors from the color chart

When ordering, it is necessary to indicate the desired RAL color for the sheet steel components. Any variants not present in the chart are available upon request for a quote.
