

Professional workbench with cabinet h965_20

Professional metal and MDF workbench (120x75 cm) with 600 kg load capacity. Includes lockable cabinet for secure tool storage.

The **H965_20 professional workbench** is a workstation designed to support heavy loads in industrial and craft contexts. The structure is designed to maximize stability during mechanical operations, thanks to the use of a **35 mm high-density MDF top** that guarantees impact resistance and a regular supporting surface. The integration of a protected storage compartment allows for the organization of equipment, reducing downtime and improving safety in the workplace.

Technical specifications

- **Total dimensions:** W 120 x D 75 x H 86.5 cm
