

## Projection screen for conference rooms h920\_06

Roller screen with open case, ideal for wall/ceiling. **Dimensions:** 2,660 x 1,768 mm.

**The roller screen** is designed to meet the needs of **schools, meeting rooms and professional installations**, offering a perfect balance between advanced technology, quality and simplicity of assembly.

Thanks to the open case and the optimized assembly system, it is ideal for fixed **wall or ceiling** mounting. The 16:10 widescreen format makes this screen perfect for presentations, educational or corporate projections.

The fabric guarantees a uniform and high-quality projection, while the **wrinkle white** finish headboard gives a clean and professional aesthetic touch.

Buy your professional 16:10 roller screen today and improve your presentations! Request a quote for multiple orders or customizations.
