

## Projector screen h825\_05

Meeting room projection screen. Dimensions: 350 x 252 cm.

**Projector screen** ideal for training rooms, meetings, conference rooms. The housing is made of white lacquered **anodized aluminium** with non-toxic paints and has a unique and elegant shape that fits perfectly into any environment. The borders allow for greater reflectivity of the image projected inside. The screen is made of **PVC** with a matt white front and a glossy white back. The **white screen** is ideal in any light condition. It ensures the absence of hot spot effects, perfect light distribution and color uniformity.

### Technical Features:

- Material: anodized aluminium
- White PVC screen
- Electric mechanism
- Screen format 16:10
- Fixing system: wall and ceiling
- Dimensions: 350 x 252 cm

*\*Upon request and prior quotation it is possible to purchase the screen in other colors*
