

Public park bench h140_542

4-seater public bench in steel and Okumè wood with integrated USB ports. Dimensions: W 240 x D 50 x H 74 cm.

The **public park bench H140_542** is designed to offer **comfort, functionality and durability** in urban spaces. With its **4 seats** and a modern design, it combines the convenience of USB charging ports with the solidity of a structure built to last in outdoor environments.

The frame consists of **shaped galvanized sheet metal supports** obtained by laser cutting, with **shaped corners** and preparation at the base for ground anchoring. The intermediate armrest and the side table, also in galvanized sheet metal, are functional elements that enrich the structure, offering practicality and a comfortable support.

The seat and backrest are covered with **Okumè wood profiles** section 90x25 mm, arranged with different orientation between the seat side and backrest side, to ensure **optimal ergonomics and comfort**. On the side table, there is a flap that gives access to the **integrated USB port**, ideal for recharging smartphones or electronic devices in public spaces.

All **electrical components** are protected in a special internal compartment, inaccessible and safe, to ensure reliability and prevent tampering. The finish of the frame is in **RAL 3004HR (purple red)**, obtained with a cycle of **certified anti-corrosion treatments**: washing, sandblasting, epoxy primer, thermosetting powder coating and **double polymerization at 180°C**. This process ensures a uniform, resistant and durable coating, capable of protecting the structure from atmospheric agents.

The bench is supplied **already assembled**, complete with steel screws and instructions for fixing. It is prepared for ground installation via **anchor bolts and expansion plugs**. With a total weight of 84 kg, it offers the right stability even in high-traffic public areas.

FAQ:

1. **How many seats does this bench offer?**
The bench has 4 comfortable and well-distributed seats.
2. **Is it suitable for outdoor installation?**
Yes, thanks to anti-corrosion treatments and powder coating, it is resistant to atmospheric agents.

3. **Is the USB port protected?**

Yes, it is located under the side table and protected by a flap.

4. **Does the product arrive already assembled?**

Yes, it is supplied assembled with screws and instructions for fixing.

5. **What certifications does it have?**

The product complies with ISO 9001:2015, UNI EN ISO 3834-3:2021 and Transformation Center DM 17/01/2018 certifications.

Mini buying guide:

When choosing a bench for public spaces, it is important to consider **robustness, comfort and functionality**.

Structures in **galvanized steel with powder coating** are ideal because they guarantee long life and resistance to external agents.

The combination with wood such as **Okumè**, known for its stability and resistance, offers comfort and a natural look.

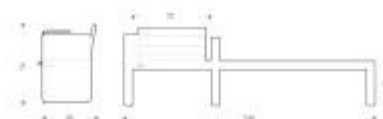

Benches with USB ports represent an added value to modernize public gardens and offer useful services to citizens. Finally, ensure that the product has **quality certifications** and is prepared for secure anchoring to the ground.
