

## Public park bench h287\_347

Bench for public spaces without backrest. Dimensions L.220 x D. 70 x H. 45 cm.

Bench for public spaces **without backrest** with a 180 cm long seat made of round steel profiles and galvanized steel tubes. The support bases of the bench are made of **reinforced white concrete**. The steel parts first undergo a **pre-treatment** degreasing process of impurities through steam solutions, then dried and subjected to **painting operations using electrostatic spray guns** that cover the pieces with powder paint. Subsequently, the product is subjected to **oven polymerization**, a process that allows the powder to solidify by baking at a temperature of 180/200° C in a hot air circulation oven. The pieces coming out of the oven are **cooled naturally**.

### Technical features:

- Material: Galvanized steel
- Hardware and bolts: in STAINLESS steel
- Anchoring: ground level
- Dimensions: L. 220 x D. 70 x H. 45
- White concrete support bases with anti-degradation treatment
- Without backrest
