

Public park bench with backrest h677_22

Bench for paths in wood and concrete. Dimensions. W.190 x D.69 x H.80 cm. Available in different finishes.

The bench for public spaces has been designed both for installations within urban areas and to be positioned along nature trails. The high-quality materials, such as concrete and wood, allow the product to adapt to any environment and style. **The bench is made of high-quality fiber cement, while the backrest and seat are made of wood.** The surfaces of the product are treated and painted to resist atmospheric agents and UV rays. The urban furniture bench is available in different finishes.
