

Public park fountain with dog bowl h521_44

Square urban fountain in steel and cast iron (760x1000 mm) with dual dispensing for people and animals and integrated stainless steel bowl.

This **urban furniture fountain** has been developed to meet the needs of inclusivity and functionality in public parks and city areas. The **square steel structure** ensures high mechanical resistance, integrating into a single body a drinking solution dedicated to both users and their pets. The base features a **cast iron grate** that serves as a drainage surface and stabilizer, completed by a lower platform specifically designed for **solid and permanent ground anchoring**.

Technical features

- **Dimensions:** L. 760 x h. 1000 mm
- **Structure material:** Steel with square section
- **Drainage base:** Cast iron grate with integrated anchoring platform
- **Dispensing system:** Dual independent chrome taps (human and animal use)
- **Included accessories:** Corrosion-resistant stainless steel dog bowl
- **Finish:** Black painting with oven-baked process for high protection
