

Public space bench with 2 supports h287_357

Galvanized steel bench with seat and backrest in oval tubular slats. Dimensions: L 150 x D 57 x H 81 cm. Seat height: 45 cm.

The **galvanized steel bench for urban furniture h287_357** is an excellent solution for public spaces such as parks, gardens, pedestrian areas, and squares. Its **robust structure** is composed of two supports in **galvanized steel** round tube with a diameter of 40 mm, guaranteeing solid resistance to atmospheric agents and prolonged use. The seat and backrest are made with **steel slats** with an oval section (40 x 20 mm), offering comfort and stability, as well as a modern and elegant design.

The finishing process includes a **galvanization** treatment to protect the metal parts from corrosion. Subsequently, the bench undergoes a degreasing pre-treatment and is powder-coated using electrostatic guns, which ensure uniform and resistant coverage. The paint cured in an oven at high temperatures (180-200°C) creates a solid and durable surface, also guaranteeing the **non-toxicity** of the product, in compliance with current regulations.

This bench is available in a variety of **colors** to adapt to any urban context or aesthetic need. It is supplied in an **assembly kit**, facilitating transport and installation, which can be performed with **ground fixing** for greater stability and safety.

Enrich your public space with the **galvanized steel bench h287_357**, resistant, versatile, and with an elegant design. **Order now** to improve the comfort and appearance of your urban environment, choosing from various colors available!

Technical features:

- **Frame material:** Galvanized steel
- **Dimensions:** L 150 x D 57 x H 81 cm
- **Seat height:** 45 cm
- **Support section:** Round tube Ø 40 mm
- **Seat and backrest:** Oval steel slats 40 x 20 mm
- **Finish:** Powder coating, non-toxic
- **Bolts and nuts:** Galvanized according to UNI 3740
- **Anchoring:** Ground fixing
- **Delivery:** In assembly kit

User benefits:

- Resistant to atmospheric agents and corrosion
- Available in various colors to adapt to the urban context
- Easy to assemble and anchor to the ground
- Ergonomic design for greater comfort
- Reduced maintenance thanks to high-quality galvanization and painting

FAQ:

1. **Is the bench weather-resistant?**
Yes, the galvanized steel structure and powder coating guarantee resistance to rain, sun, and humidity.
2. **What are the dimensions of the bench?**
The dimensions are 150 cm in length, 57 cm in depth, and 81 cm in total height, with a seat height of 45 cm.
3. **Is it difficult to assemble the bench?**
No, the bench is delivered in an **assembly kit** with simple instructions to follow.
4. **Is it possible to anchor the bench to the ground?**
Yes, the product is designed to be fixed to the ground for greater safety and stability.
5. **Which colors are available?**
The bench is available in several colors, which can be selected at the time of ordering.

Short buying guide:

When choosing a **bench for urban furniture**, it is important to consider resistant materials like **galvanized steel**, which offers protection against corrosion and requires little maintenance.

Verify that the product is treated with **powder coating** for a weather-resistant finish and ensure that **ground fixing** is possible to guarantee its stability. A further aspect to evaluate is the possibility of **color customization**, to integrate the bench with the aesthetics of the urban context.
