

Public space bench with backrest h140_562

150 cm outdoor bench with WPC seat and metal backrest. Galvanized steel structure, 3-seater, ground fixing.

The **h140_562 public space bench** is a 150 cm outdoor seat that combines the innovation of WPC with the solidity of metal. Designed to accommodate up to 3 people, this bench solves the problem of constant maintenance in urban furniture thanks to the use of **WPC (Wood Plastic Composite)** slats for the seat and a galvanized steel structure. The side supports are made of 80x6 mm flat iron with a top shaping that acts as an integrated armrest. The backrest, composed of square steel profiles, is designed with a 100° ergonomic inclination to ensure maximum postural comfort. Painted with thermosetting powders, it ensures high resistance to UV rays and humidity in high-traffic public contexts.

Technical features

- **Dimensions:** 150 x 60 x 84h cm
- **Capacity:** 3 seats
- **Seat material:** Contoured WPC slats, 90x40 mm section
- **Backrest material:** Galvanized square steel profiles, 20x20 mm section
- **Supporting structure:** Two 80x6 mm flat iron supports with integrated armrests
- **Finish:** Galvanized and thermosetting powder-coated steel
- **Ergonomics:** 100° backrest inclination
- **Fixing:** Prepared for ground anchoring via holes at the base
- **Hardware:** Stainless steel screws included
- **Supply:** Assembly kit with detailed instructions
- **Metal part colors:** available in mouse grey or anthracite grey
