

## Public space cleaning trolley h951\_10

Lightweight and easy-to-handle hand trolley, with a 60-liter plastic container, pneumatic wheels Ø 260 mm and aluminum and galvanized steel structure. Dimensions: W 51 × D 50 × H 137 cm.

The **H951\_10 public space cleaning trolley** is the ideal solution for the **collection and management of waste in urban environments, parks, gardens, and public spaces**. Thanks to its **compact and lightweight design**, it is perfect for **regular use** by sanitation workers, cleaners, and urban maintenance services.

Made with a **powder-coated aluminum and galvanized steel frame**, it is resistant to **weathering, wear, and corrosion**, guaranteeing a long life even in outdoor environments. The **60-liter plastic container** allows for practical and organized waste collection, while the **grabber tool holder** facilitates effortless collection, avoiding continuous bending.

The **pneumatic wheels Ø 260 mm** ensure **stability and ease of movement on any type of terrain**, including gravel, grass, and irregular paving. The **handle mountable on both sides** offers greater **versatility**, adapting to the operator's needs for more comfortable use.

Supplied in an **assembly kit**, the trolley can be assembled quickly, making it ready for use in minutes.

Buy the **H951\_10 urban sanitation trolley** now and improve waste collection management with a practical and ergonomic system!

### Technical features:

- **Frame material:** Powder-coated aluminum and galvanized steel
- **Dimensions:** W 51 × D 50 × H 137 cm
- **Weight:** 6 kg
- **Number of wheels:** 2 with pneumatic tires Ø 260 mm
- **Bag capacity:** 120 liters
- **Container capacity:** 60 liters
- **Support:** for grabber tool
- **Handle:** mountable on both sides
- **Supplied:** in assembly kit

### User benefits:

- **Lightweight and easy to handle:** weighs only 6 kg for effortless transport.

- **Sturdy structure:** made of aluminum and galvanized steel for long-lasting durability.
- **Easy to use on any surface:** pneumatic wheels suitable for irregular paving.
- **Ergonomic and practical:** equipped with a support for a grabber tool for easier collection.
- **Easy to assemble:** supplied in an assembly kit with simple instructions.
