

Public space cleaning trolley with tools h951_15

Compact and functional hand trolley with two 60-liter containers, adjustable handle, tool support and puncture-proof wheels Ø 310 mm. Supplied already assembled. Dimensions: W 121 x D 71 x H 98 cm.

The **H951_15 cleaning trolley for public spaces** is designed to **facilitate waste sorting and waste management in parks, urban streets, public areas and outdoor spaces**. Thanks to its **sturdy and maneuverable structure**, it offers a practical solution for ecological operators, urban cleaning services and environmental maintenance.

Made with an **aluminum and powder-coated galvanized steel frame**, the trolley guarantees **durability and weather resistance**, making it perfect for prolonged outdoor use.

Equipped with **two 60-liter plastic containers**, it allows for **waste sorting**, improving the efficiency of the cleaning service. The **height-adjustable handle** offers greater comfort to the operator, adapting to different use needs.

Thanks to the **horizontal supports**, it is possible to transport up to **four long-handled tools and a litter gripper**, ensuring **order and practicality**. The **puncture-proof wheels Ø 310 mm** ensure **smooth movement and stability on any surface**, including roads, grass and gravel.

The trolley is supplied with a **complete set of tools**, which includes a **litter gripper** to pick up waste without having to bend down, an **aluminum shovel** for heavier cleaning operations, a **street broom** for effective dirt removal and **coordinated handles** for an ergonomic and secure grip.

Unlike other models, the **trolley is supplied already assembled**, ready to be used without the need for assembly.

Buy now the **H951_15 urban waste trolley** for a more efficient and organized management of urban cleaning!
