

## Public space planter in reconstituted stone h338\_45

Modular planter in sandblasted reconstituted stone. Dimensions: L 178.5 x W 145.5 x H 50 cm.

The **public space planter H338\_45** is an **urban furniture** element designed to enhance squares, parks, pedestrian areas, public entrances, schools, and shopping centers. Built in **reconstituted stone**, with **sandblasted sides** that give a natural textured effect, it is designed to last in outdoor environments, even with high exposure.

The structure is available in **two finishes** – **white concrete** and **natural grey concrete** – which allow it to be harmoniously adapted to any architectural context, both classic and modern. Its **modular and combinable design** makes it extremely versatile: it can be used individually or in combination with the **bench model H338\_46**, to create coordinated and elegant solutions for urban seating and greenery.

With a **weight of 840 kg**, the planter is **self-supporting**, stable, and safe even in unsupervised areas, without the need for fixings. The generous dimensions allow for the insertion of ornamental plants, shrubs, or small trees, making the space aesthetically pleasing and functional.

Give value to public spaces with the **H338\_45 planter**: choose durability, design, and modularity. Contact us for modular solutions and combinations with benches.

### Technical characteristics:

- **Material:** Reconstituted stone
- **Treatment:** Sandblasted sides
- **Available finishes:** White concrete / Natural grey concrete
- **Dimensions:** L 178.5 x W 145.5 x H 50 cm
- **Weight:** 840 kg
- **Installation:** Self-supporting, without fixing
- **Modularity:** Can be combined with bench model H338\_46
- **Usage:** Urban furniture, public spaces, green areas

### User benefits:

- **Material:** durable and resistant to atmospheric agents.
- **Available:** in two finishes for maximum environmental integration.
- **Self-supporting:** does not require anchoring.
- **Spacious:** capacity for decorative plants or small trees.
- **Modular:** with other modules for customized solutions.

### FAQ:

#### 1. Is the planter ready for installation?

Yes, it is a self-supporting element that does not require assembly or fixing to the ground.

#### 2. What finishes are available?

White concrete and natural grey concrete.

3. **Is it compatible with other urban furniture elements?**

Yes, it can be combined with the bench model H338\_46 to create coordinated solutions.

4. **Is it frost and weather resistant?**

Yes, the material and processing make it suitable for permanent outdoor installations.

5. **Can it be requested in other dimensions?**

The model is available in this standard size but is modular to adapt to multiple configurations.

**Mini buying guide:**

When purchasing a **public space planter**, it is important to consider **resistant materials** and **self-supporting structures**, capable of lasting over time without requiring constant intervention.

Planters in **reconstituted stone**, like the H338\_45, offer an excellent combination of **aesthetics, robustness, and functionality**.

The sandblasted treatment ensures an excellent visual result and a non-slip finish.

If you wish to create **modular configurations**, choose models that are combinable or can be paired with other urban furniture elements, such as **coordinated benches**.
