

Public space seating h140_504

Galvanized steel bench with anatomical shape, ideal for urban furniture. Dimensions: L 200 x D 45 x H 12 cm.

The **H140_504 outdoor bench** represents an ideal choice for urban furniture, combining modern design with high-level functionality. Designed to be installed on **existing low walls**, it offers a versatile and robust solution, perfect for parks, squares, schools, residential areas, and public spaces in general. The structure is made entirely of **galvanized steel**, a material that guarantees excellent resistance to atmospheric agents, corrosion, and wear over time.

The **seating** consists of **round steel tubes** which, thanks to their anatomical arrangement, offer superior comfort for users. The ergonomic design is studied to ensure stable and comfortable seating, while the oversized terminals add robustness and a distinctive aesthetic touch.

Every component of the bench is precision-crafted using **advanced laser cutting technologies** for an impeccable finish and well-defined details. The production process also includes high-quality anti-corrosion treatments, such as sandblasting and thermosetting powder coating. These processing cycles ensure **optimal protection** against atmospheric agents and salt spray, making the product suitable even for coastal areas.

Assembly is made simple by the **supplied kit**, which includes **steel hardware and detailed instructions** for fast and secure installation. The bench is also prepared for **fixing with anchor bolts and expansion plugs**, ensuring excellent stability on any type of low wall. The ISO certifications obtained during the production process testify to the high quality and compliance with current regulations.

The finish in **RAL colors (9010 for supports and 1015 for the seat)** gives the product an elegant appearance, easily adaptable to any urban context. Upon request, it is possible to customize the colors to better meet the aesthetic needs of customers.

This bench is not just an element of urban furniture, but a real investment in terms of durability, comfort, and design.

Transform your urban spaces with an elegant and resistant solution. Buy the **H140_504 urban furniture bench** now and get a certified product, ready for assembly and designed to last! For large supplies or customizations, **request a personalized quote** and receive dedicated advice. Don't wait: invest in quality and design to improve your public environments!

Technical features:

- **Seat:** round steel tubes Ø 20x1.5 mm, with oversized terminals Ø 40 x 1.5 mm
- **Dimensions:** L 200 x D 45 x H 12 cm
- **Weight:** 27 kg
- **Color finish:** RAL 9010 (supports), RAL 1015 (seat)
- **Treatments:** washing, sandblasting, thermosetting coating, and polymerization
- **Certifications:** ISO 9001:2015 and UNI EN ISO 3834-3:2021
- **Supply:** in assembly kit with instructions and hardware included
- **Fixing:** to the ground/wall

User benefits:

- **Comfort:** anatomical shape for comfortable seating.
- **Durability:** resistant to atmospheric agents and corrosion.
- **Ease of installation:** complete kit with instructions included.
- **Functional design:** ideal for modern public spaces.

FAQ:

1. **How is the bench supplied?**

The bench is supplied in an assembly kit, complete with steel hardware and detailed instructions for assembly and fixing.

2. **Is the product suitable for outdoors?**

Yes, it is designed to resist atmospheric agents thanks to the anti-corrosion treatment with thermosetting coating and polymerization.

3. **What color is the bench?**

The bench consists of RAL colors (9010 for the supports and 1015 for the seat).

4. **What certifications does the product have?**

The bench is ISO 9001:2015 certified for quality and UNI EN ISO 3834-3:2021 for welding quality management.

5. **Is a technician needed for installation?**

No, installation is simple thanks to the detailed instructions and the included fixing tools. However, for greater precision, it is recommended that the work be carried out by two people.

6. **Is the bench stable on any type of low wall?**

Yes, as long as the low wall is stable, of sufficient height, and has a flat surface for fixing. In case of doubts, contact us for technical advice.

7. **Does the bench have a backrest?**

No, the bench does not have a backrest.

Short buying guide:

Buying a bench for public spaces requires attention to several aspects to ensure a correct and functional choice. First, it is important to check the **compatibility of the installation site**. This model of bench is designed to be fixed on existing low walls, so it is necessary to ensure that the wall is stable, of adequate height and width, and offers a flat surface for mounting.

Another crucial element is the **quality of materials**. The H140_504 bench, made of galvanized steel, is ideal for outdoor use thanks to its resistance to atmospheric agents. The anti-corrosion treatment, which includes sandblasting and thermosetting powder coating, makes it particularly suitable even in areas with difficult climatic conditions, such as coastal areas or regions subject to heavy rain.

Also consider the **ergonomic design**. This model features an **anatomical seat** that guarantees maximum comfort to users, a fundamental detail to make the experience pleasant and invite continuous use of the product. A well-designed layout, like that of this bench, also enhances the aesthetics of the public space, making it welcoming and tidy.

A further advantage is the **simplicity of installation**. The bench is supplied in a kit with all the necessary components, including assembly instructions. Thanks to the pre-drilled holes for anchor bolts and plugs, fixing to the low wall is simple and secure, even without special technical skills.

In summary, the H140_504 bench represents an excellent choice for those who want a robust, elegant product designed to last over time. Ideal for improving the functionality and aesthetics of public spaces, it offers a perfect balance between quality, comfort, and practicality.

Galvanized steel public space bench, weather-resistant bench, wall-mounted bench, modern urban furniture, anatomical bench, customizable RAL bench, urban bench installation.
