

Quiet 40 l hotel minibar with wooden door h3403

40 l absorption minibar for hotels, low consumption LPC system, absolute silence and panel-ready door. Dimensions 544x390x460 mm.

The **40-liter guest room minibar** is a professional solution designed specifically for the hospitality sector, where guest comfort and energy efficiency are priorities. Thanks to the **absorption cooling system**, the device operates in total absence of noise, eliminating the acoustic disturbances typical of compressors and ensuring undisturbed rest in hotel rooms. The integration of the **LPC (Low Power Consumption) electronic system** optimizes cooling performance while significantly reducing electricity consumption.

Designed for hotel owners and interior designers, this model solves the aesthetic and functional problem of integration into furniture: the **door is panel-ready** (available in walnut or black finish) and reversible, making it ideal for built-in installation, with or without a sliding hinge. Internal features include low thermal impact LED lighting, shaped shelves for 1.5-liter bottles, and an automatic defrost system that simplifies routine maintenance.

Technical features

- **Production:** Made in Italy
- **Control system:** LPC electronic for consumption optimization
- **Refrigeration technology:** Absorption
- **Net capacity:** 40 liters
- **External dimensions:** H 544 x W 390 x D 460 mm
- **Internal dimensions:** H 450 x W 310 x D 270 mm
- **Weight:** 17 kg
- **Energy class:** G
- **Power supply:** 230 V
- **Energy consumption:** 0.85 kW/24h
- **Door configuration:** Panel-ready and reversible
- **Internal equipment:** 2 internal shelves and 2 door shelves
- **Bottle compatibility:** Housing for 1.5 l bottles
- **Advanced functions:** Automatic defrost, internal LED lighting, door opening indicator and standby function
- **Warranty:** 2 years

Optionals

- 4.5 cm adjustable feet
- 6 cm wheels
- Side handle for easy opening
