

Rabbit-shaped spring rider for children h521_14

Rabbit-shaped spring rider made of PEHD polyethylene and steel, 83x25x99 cm. Certified structure for public parks and professional play areas.

The **h521_14** spring rider is a professional play equipment designed for installation in high-traffic recreational areas. The structure combines a thick steel spring with an ergonomic rabbit-shaped silhouette, offering a dynamic play experience that promotes motor development and balance. Made with technical materials selected for resistance to atmospheric agents and intensive use, this urban furniture component ensures high safety standards and reduced maintenance over time.
