

Double-sided Bicycle Rack h19107

Double-sided rack in galvanized and painted steel, available with 10, 12, or 14 spaces in micaceous gray. Min. dim. 2000x440x310h mm.

The **double-sided bicycle rack h19107** is a professional solution designed for the setup of high-density parking areas in urban and corporate contexts. Made of **galvanized steel** with a micaceous gray powder finish, the structure meets the need to optimize public or private space, offering stable and weather-resistant support. Thanks to the double-sided configuration, the product allows for accommodating a high number of bicycles (from 10 to 14 spaces) by reducing linear bulk, solving the problem of clutter and uncontrolled parking in high-flow areas such as stations, schools, and offices.

Technical features
