Double-sided steel bike rack h19106

Double-sided bike rack in galvanized and painted steel, available with 4, 6, 8, and 10 spaces. Minimum dimensions 800x440x310h mm.

The **double-sided bike rack h19106** is a professional solution designed for the systematic organization of bicycle parking in public and private contexts. Made with a robust structure in **galvanized and powder-coated steel** in a Micaceous Grey finish, it meets the need to manage high-density spaces while ensuring maximum resistance to atmospheric agents and preventing corrosion over time. Thanks to the double-sided configuration, the device allows bicycle access from both sides, optimizing the occupied area and solving the problem of disorder at parking points. It is the ideal support for **municipal administrations, schools, and business centers** looking for a durable product, already assembled and ready for ground fixing.

Technical features

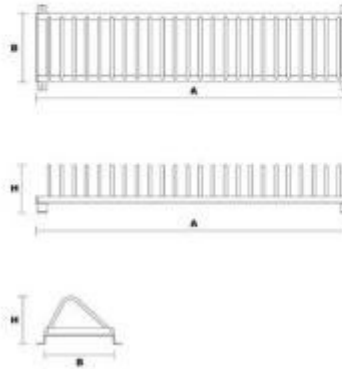

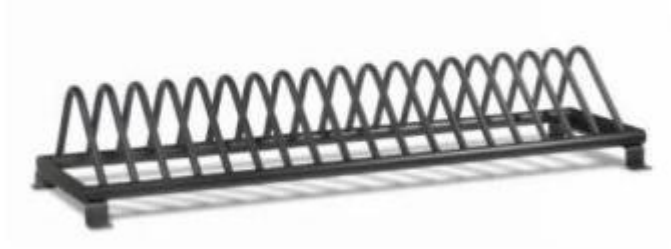

- **Material:** Galvanized and epoxy powder-coated steel.
- **Finish:** High-resistance Micaceous Grey color.
- **Configuration:** Double-sided (access from both sides).
- **Capacity:** Available versions with 4, 6, 8, or 10 bike spaces.
- **Depth and height dimensions:** 440 x 310 mm.
- **Length dimensions (variable):** 800 mm (4 spaces), 1200 mm (6 spaces), 1600 mm (8 spaces), 2000 mm (10 spaces).
- **Supporting structure:** Two horizontal steel tubes with a diameter of 42 mm.
- **Wheel-holder brackets:** Triangular shape, 20 mm diameter, dimensions 420 x 200 mm.
- **Bracket interval:** 60 mm for universal compatibility with standard tires.
- **Fixing:** Prepared for ground anchoring via bolts on laser-shaped sheet metal elements.
- **Weight:** 14, 20, 26, 32 kg based on the number of spaces.
- **Supply:** Product delivered fully assembled.
