

Rechargeable LED lamp h1019_01

Professional 1000 lumen rechargeable LED lamp, IK08 shockproof rubberized plastic body (7.7x18.2 cm), with replaceable 18650 battery.

The **H1019_01 rechargeable LED lamp** is a high-performance professional tool, designed specifically for lighting in **confined spaces** and harsh technical environments. Thanks to the combination of a **front COB LED** source of 1000 lumens and a **spot SMD source**, the device solves critical issues related to precision inspections and diffused lighting in workshops, garages, and engine compartments. The body is made of **high-resistance rubberized plastic**, ensuring an ergonomic grip and certified protection against mechanical impacts.

Technical features

- **Lighting technology:** Front COB LED (1000 lm) and spot SMD (380 lm)
- **Operating modes:** 4 intensity levels (Spot, 100%, 50%, 25%)
- **Operating autonomy:** up to 12 hours in COB mode; 8 hours in spot mode
- **Power supply:** User-replaceable Li-Ion 18650 battery (3.7V / 2.5Ah)
- **Charging:** USB-C interface with a charging time of approximately 3 hours
- **Mechanical resistance:** IK08 rating (shockproof)
- **Environmental protection:** IP54 rating (resistance to dust and water splashes)
- **Supports:** Integrated rear magnet and 360° rotating retractable hook
- **Dimensions and weight:** 7.7 x 5 x 18.2 cm; 0.41 kg
- **Color temperature:** 6500K (technical cool light)
