

Rechargeable portable LED lamp h1019_02

1000 lm SMD LED inspection torch in shockproof rubberized plastic. Adjustable focus, replaceable 18650 battery and IP54 rating. Dim. 4.7x4.7x20.5 cm.

The **H1019_02** is a professional portable lamp designed for technical inspection in industrial and operational environments. Equipped with **1000 lumen SMD LED** technology, this torch offers high-contrast lighting with a color temperature of 6500K, ideal for identifying structural details or defects in cramped spaces. The body, made of **shock-resistant rubberized plastic (IK08)**, ensures a firm grip and protection against accidental drops. The **variable focus** system allows the light beam to be modulated according to needs, switching from a diffused light for wide areas to a concentrated beam for precision inspections.

Technical specifications

- **Type:** Professional rechargeable inspection torch
- **Light source:** High-efficiency SMD LED
- **Luminous flux:** 1000 lm (adjustable on 3 levels: 100%, 50%, 25%)
- **Light range:** Up to 120 meters
- **Optics:** Manually adjustable focus
- **Power supply:** Replaceable Li-Ion 18650 battery (3.7V / 2.5Ah)
- **Charging system:** USB-C port (cable included) or wireless base (optional)
- **Operating autonomy:** Up to 12 hours in saving mode
- **Protection degree:** IP54 (dust and splashes) and IK08 (shocks)
- **Fixing:** Integrated magnets on base and back side
- **Dimensions:** 4.7 x 4.7 x 20.5 cm
- **Weight:** 0.30 kg
