

Recreational sand table for children h350_315

Inclusive sand table h350_315 in pressure-treated Nordic pine (210x90x60 cm), EN 1176 certified with basins and sand compartments for playgrounds.

The **sand table h350_315** is a professional play equipment designed for public and private playgrounds, focused on sensory interaction and accessibility. Made of **Nordic pine wood** treated for outdoor resistance, the structure allows multiple children to play simultaneously, offering ergonomic stations also suitable for users with **motor disabilities**. The integration of different materials, such as HPL laminate and high-density resin, guarantees a long operational life in high-traffic contexts.

Technical features

- **Age range:** 2 - 8 years
- **Dimensions:** 210 x 90 x h. 60 cm
- **Minimum safety space:** 510 x 390 cm
- **Capacity:** Up to 5 simultaneous users
- **Structure material:** Nordic pine wood pressure-treated in autoclave with non-toxic salts
- **Posts:** 8 elements with 7x7 cm section
- **Perimeter sides:** 11.5 x 2.5 cm section
- **Internal components:** 3 shaped high-density resin basins and 2 sand storage compartments
- **Covers:** 3 colored HPL multilayer bi-laminate basin covers
- **Hardware:** Class 8.8 galvanized steel bolts and self-locking nuts
- **Safety:** Colored nylon nut covers
- **Certification:** Compliant with European Standards EN 1176 (TÜV - SÜD)
- **Total weight:** 10 kg
