

## Rectangular dog waste bin with rain hood h287\_379

Galvanized steel dog waste bin with rain hood lid, 30 L capacity, for parks and green areas. Triangular key opening, Ø50 mm post, underground anchoring.

The H287\_379 dog waste bin is the dedicated solution for hygienic waste management in **public parks, green areas, pedestrian paths, and urban spaces frequented by dogs**. Designed to **withstand weather agents and intensive use**, it guarantees safe and discreet collection, with a controlled emptying system.

The bin structure is made of **10/10 thick shaped galvanized steel sheet**, equipped with an **internal bag holder ring** for simple and hygienic bag management. The **lid, which opens with a triangular key** (supplied), integrates a **protective rain hood** that prevents direct entry of rainwater.

The **Ø50 mm steel tube support post** is completed with a **laser-cut plate** and **black PE head cap**, details that ensure structural strength and a refined design integrated into public spaces.

The **non-toxic epoxy powder coating**, oven-baked at 180–200°C after thorough pretreatment, protects against corrosion and atmospheric agents, complying with current regulations for installations in public areas.

## Technical features

- **Use:** Outdoor dog waste collection
- **Bin material:** 10/10 thick galvanized steel sheet
- **Lid:** Openable with triangular key (supplied)
- **Capacity:** approx. 30 liters
- **Support post:** Ø50 mm steel with black PE head cap
- **Base plate:** Shaped with laser technology
- **Bag holder ring:** Internal
- **Emptying:** With Allen key (supplied)
- **Finish:** Non-toxic epoxy powder coating, oven-baked
- **Total dimensions:** W 35 x D 33 x H 110 cm
- **Anchoring:** To be buried

# Optional

- **Sticker:** With identification image
