

Rectangular galvanized sheet metal tank h12752

Rectangular tank for drinking water storage. Dimensions: W. 600 x D. 2000 x h. 1400 mm. In galvanized sheet metal.

Galvanized sheet metal drinking water tank, rectangular, with 320 mm manhole. The construction material, **carbon steel sheet**, undergoes a hot-dip galvanizing treatment with SHG (Super High Grade) Zinc whose purity is equal to 99.995%. Ideal for the industrial sector and for storing drinking water at companies and industries, it features a **resistant and durable structure**. Includes **Ø 320 mm manhole, vent and connections**.

Technical features:

- Dimensions: W. 600 x D. 2000 x h. 1400 mm
- Nominal capacity: 1500 l
- Material: hot-dip galvanized sheet metal
- Type: rectangular
- For drinking water storage
- Ø manhole: 320 mm
- 1" 1/2 connections
- 1" 1/2 vent
