

Rectangular road manhole cover 60x80 mm h638_91

Rectangular ductile iron manhole cover Class C250. Dimensions: 600x800 mm

Ductile iron manhole cover manufactured according to the latest edition of the UNI EN 124 standard, load class C250, by an **ISO 9001:2015 certified company**, consisting of a frame with a rectangular shape both at the support base and at the top corresponding to the road level, equipped with an adequate external perimeter flange, continuous on all four sides to obtain a larger support base and allow for better anchoring to the foundation; internal "U" seat to achieve odor tightness by filling with sand and/or equivalent materials in coupling with the cover; beveled internal corner for unique insertion of the cover. Rectangular cover equipped with closed-bottom slot(s) suitable for accommodating lifting keys; space for the insertion of any inscriptions and/or logos (e.g. contracting authority + etc.); beveled corner for unique insertion into the frame; uniformly distributed non-slip reliefs for the complete drainage of runoff water.

Technical features:

- Material: ductile iron
- Load class: C250
- Frame shape: rectangular
- Rectangular cover shape
- Odor-tight
- Dimensions: 600x800 mm
- Clear opening: 500x700 mm
- Height: 50 mm
- Weight approx. 45 kg
